

7 August 1959

I called Dr. Launago (who knows me as [ ] at her office in Lancaster, Penna.; I previously had been unsuccessful in contacting her at her home. Dr. Launago and I discussed the progress she was making in completing a series of shots which she and her children are required to have completed prior to their travel to Germany. From her conversation, she is proceeding on the theory that her departure will take place shortly after the series of shots are finished. I did not mention anything about her husband but was just about to ask her what she had heard from him when she told me she had received a very ~~odd~~ odd cablegram from her husband this AM. The cablegram announced that "Per her request, he was coming home. He would see her soon. She was not to write". She is a bit more than puzzled by it and is unable to figure out what he means "Per her request" as she has never requested him to return. I did not let on that I was aware of any of the recent developments. I told her I would be glad to find out for her. She said she was going to write to him anyway even though he had told her not to. I then told her that I was not telling her she should not write to him but I thought I might be able to find out more quickly. She appreciated my suggestion and agreed with me. I told her I would call her Sunday at her home at 10:30 AM if I had any news and, in the event I did not, I would call her Monday regardless. She thanked me and expressed her appreciation for my interest.
